

1st Assignment
HUM-4145
CSE-01 & 02
TVE
VMOSA

VMOSA for a Student's Life Based on Islamic Ethics, Quran, Salah, and Professional Program Objectives (According to PEOs & POs of CSE/TVE Dept. IUT)

Vision

To become a well-rounded individual who excels academically, professionally, and spiritually, integrating the values of Islam with a strong foundation in Quranic understanding and Salah, contributing to society and the Muslim Ummah with ethical professionalism, lifelong learning, and teamwork.

Mission

To pursue excellence in both academic and spiritual growth, aiming to apply computing and software engineering knowledge ethically and professionally for the benefit of society, the Muslim Ummah, and beyond, while cultivating a deep connection with Allah through understanding the Quran and maintaining Salah as a source of guidance in all pursuits.

Objectives

1. **Academic Excellence:** Strive for mastery in computer science or software engineering, applying analytical approaches to solve complex problems while aligning academic efforts with Islamic principles (PEO1, PO1, PO2, PO3).
2. **Quranic Understanding:** Prioritize understanding the Quran and integrating its teachings into daily life, recognizing it as a source of wisdom, ethical guidance, and motivation (PO6, PO7, PO8).
3. **Spiritual Growth and Salah:** Establish Salah as the cornerstone of daily life, using it to seek guidance, patience, and perseverance. Salah fosters discipline, time management, and regular self-reflection (PO12).
4. **Moral Integrity and Professionalism:** Commit to ethical decision-making, honesty, and integrity in both professional and academic environments. Uphold Islamic values, promoting justice and welfare for the broader society, the Muslim Ummah, and beyond (PEO2, PO6, PO8).
5. **Lifelong Learning:** Embrace a continuous journey of personal and professional development, seeking knowledge through higher education, self-motivation, and understanding the Quran. This ensures the ability to adapt to technological changes and challenges (PEO3, PO12).
6. **Effective Communication and Teamwork:** Develop strong communication skills to interact effectively with peers from diverse cultural and educational backgrounds.

Collaborate within multidisciplinary teams, contributing positively to society and global challenges (PEO4, PO9, PO10).

Strategies

1. **Integration of Quran and Salah in Daily Life:** Dedicate time daily to understanding and reflecting on Quranic verses, and performing the five daily prayers (Salah) on time. Use these spiritual practices to strengthen focus, resilience, and ethical decision-making (PO12).
2. **Balanced Time Management:** Develop a well-structured daily routine that balances academic pursuits, Salah, Quranic studies, self-care, and service to others (PEO1, PO11).
3. **Application of Engineering Knowledge:** Apply Islamic ethical frameworks when working on academic projects and during professional training. Engage in projects that align with societal welfare, environmental sustainability, and the betterment of humanity (PO3, PO6, PO7).
4. **Service to the Ummah and Society:** Actively participate in initiatives that benefit the Muslim community and society at large, such as community-based software development projects or campus Da'wah activities (PEO2, PO6).
5. **Collaborative Learning and Teamwork:** Engage in study groups, collaborative research projects, and volunteering efforts that emphasize teamwork, diversity, and ethical practices (PEO4, PO9).
6. **Self-Motivation and Lifelong Learning:** Regularly seek professional training, engage in Quranic studies, and attend seminars or courses that enhance both technical and spiritual knowledge, ensuring continuous improvement (PEO3, PO12).

Actions

1. **Salah and Quranic Reflection:** Ensure the five daily prayers are performed punctually and allocate specific time weekly for Quranic reflection, particularly focusing on verses that discuss knowledge, ethics, and societal responsibilities (PO6).
2. **Study and Project Work:** Follow a disciplined study routine that includes setting academic goals aligned with the curriculum and ethical standards. Focus on software or engineering projects that address real-world problems, contributing to societal welfare and sustainability (PO1, PO3, PO5).
3. **Quranic and Professional Alignment:** Continuously seek Quranic guidance to inform both academic decisions and professional conduct. Study verses that emphasize honesty, fairness, and accountability, applying these to classroom interactions, teamwork, and engineering practice (PEO2, PO8).
4. **Volunteering and Da'wah:** Participate in university or community initiatives aimed at fostering Islamic values and ethical contributions, such as tutoring underprivileged students in STEM or contributing to environmentally conscious tech projects (PEO4, PO7).

5. **Self-Assessment and Feedback:** Regularly evaluate academic performance and spiritual growth, making necessary adjustments to improve in both areas. Seek feedback from mentors and peers on ethical and academic performance (PO11).

Outcome

By implementing this VMOSA, the student will excel academically in engineering or software development, with a deep understanding of Quran and Salah as guiding forces. This balanced approach will foster professionalism, ethical integrity, and lifelong learning, enabling the student to contribute effectively to society, the Muslim Ummah, and global challenges. The integration of Islamic ethics ensures the development of a holistic individual who can face the complexities of the modern world with a strong moral compass.
